

A safe middle path for reporting harassment and discrimination in Kraków

Report in a few minutes, without an account, and get routed to the right kind of **human** help.

Live: haven-hackyeah.polandcentral.cloudapp.azure.com

Code: github.com/antonvidishchev/haven-hackyeah2026

Made by Anton Vidishchev for HackYeah 2026 · Smart City open task

Prototype: all organisations, people and resources are fictional. In danger, call 112.

The problem: "call the police" or "say nothing"

1 in 10

women in Poland have
experienced stalking;

1 in 8

sexual harassment at work

15%

of the incidents covered by the
study were reported to the police

+30%

hate-crime reports involving
Ukrainians, H1 2026 vs H1 2025

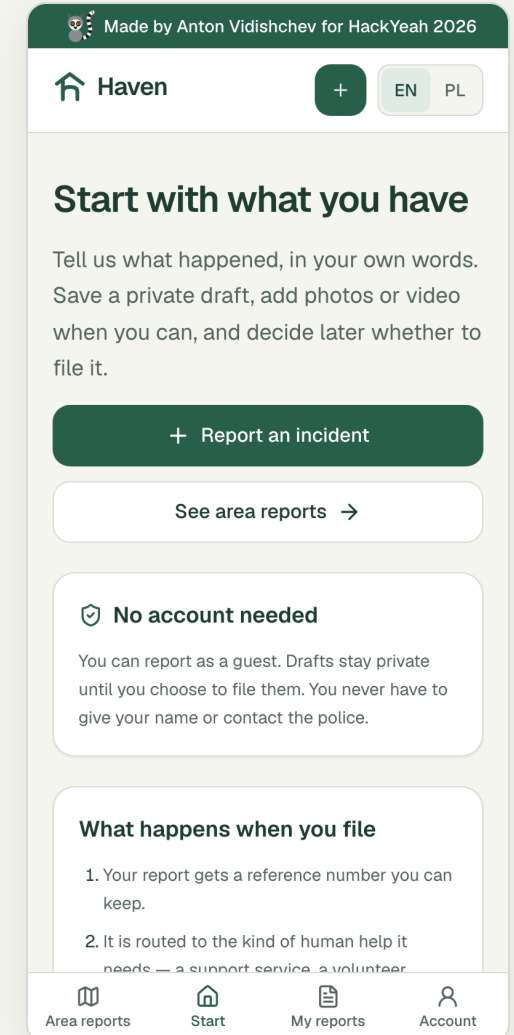

- A person harassed on a tram, at a stop or in their street often isn't ready to go to the police, so **most say nothing**.
- Residents miss support, and the city's services **can't see where help is needed**.

Sources: nationwide study of women in Poland, czasopisma.inp.pan.pl/index.php/bk/article/view/5715 · Police figures via Notes from Poland, 17 Jul 2026. The figures measure different harms, not a single Kraków trend.

Haven connects four groups in one calm channel

Who	What they do in Haven
Residents	Report as a guest or signed in, EN/PL, web or phone; add photos, video, audio, place
Operators	A human reviews every report in a prioritised queue
Partner organisations	Volunteer network, professional support, police coordination unit claim and act
The city	Sees demand per district without seeing people

Incident types: verbal harassment, intimidation, threats, discrimination, hate symbols and vandalism, each tied to a place in the city.

One report's journey, from tram 8 to a closed case

1. **Report.** Someone is insulted about their accent on tram 8 near Teatr Bagatela. With no sign-up, they describe it, pin the stop and file, then get reference **HV-2026-...**
2. **Route.** The Smart Router matches *low severity* → **volunteer network**.
3. **Help now.** The resident immediately sees matched local support.
4. **Triage.** The operator checks it and sends it on in one click.
5. **Act.** A volunteer official claims it, records a phone call and closes it.

Discrimination

🕒 Report filed

Your reference is HV-2026-000002. Keep it if you want to follow up.

📬 Routing (simulated)

Sent to Kraków Community Support Services (fictional)

Priority • Normal

Confirmation required. Haven's team will check the details with you before acting.

Haven's Smart Router picks a responder from fixed, published rules — it is not AI. A person on Haven's team reviews every report.

🚧 Prototype simulation — no services are contacted.

💡 Help that fits your situation

Campus Safety Office (fictional) • Victim support

Confidential help for students harassed on campus, in dormitories or online.

Languages Polish, English

Hours Mon-Fri 9:00-17:00

Contact 📞 +48 12 000 00 21 • campus-safety-office@example.org

Matched because: Discrimination · Il Grzegórzki · Medium

Access for All Advocacy (fictional) • NGO

Advocates for disabled residents who face harassment or discrimination.

Languages Polish, English

Hours Mon-Fri 9:00-17:00

Contact 📞 +48 12 000 00 20 • access-for-all-advocacy@example.org

Matched because: Discrimination · Citywide · Medium

Calm Mind Counselling (fictional) • Psychological support

Short-term counselling for fear, stress and sleeplessness after an incident.

Languages Polish, English

Hours Mon-Fri 9:00-17:00

Contact 📞 +48 12 000 00 07 • calm-mind-counselling@example.org

Matched because: Discrimination · Citywide · Medium

A filed report as the resident sees it: routing card and matched help (here: discrimination → professional support).

Explainable routing and help that fits

Smart Router: published rules, not AI

Report	Goes to	Priority
Low severity	Volunteer network	Normal
Medium + evidence	Professional support	Normal
Medium, no evidence	Professional support	Confirm first
High	Professional support	Expedited
Emergency / weapon	Police coordination	Top priority

Each decision stores its rule, ruleset version and a SHA-256 digest of the rules.

Support matchmaking

- Up to 5 local services (legal aid, counselling, NGOs, helplines)
- Scored by category, district, keywords and severity
- Each one shows a plain **"Matched because: Discrimination · Citywide · Medium"**
- Emergency signals show the **112** notice first

Every report reaches a human

Case HV-2026-000003

Top priority Open

Report

Reference	HV-2026-000003
Category	Threat
Severity	Emergency
Weapon or immediate threat	Yes
Repeat incident	No
When	Oct 3, 2026, 6:00 AM
District	IV Prądnik Biały
Place	Bus stop on Opolska (fictional)
What happened	Fictional showcase: a man with a knife threatened people waiting at a bus stop.
Organisation	District Police Coordination Unit (fictional)
Triage	Needs review
Filed	Oct 3, 2026, 6:14 AM
Report version	2

Evidence

No evidence attached.

Revisions

#1	Draft started	Oct 3, 2026, 6:12 AM
#2	Filed	Oct 3, 2026, 6:14 AM

Routing

Rule	router-rule-5 (router-rules-v1)
Routed at filing to	District Police Coordination Unit (fictional)
Current destination	District Police Coordination Unit (fictional)

Advisory recommendation

Simulated local recommendation
No suggestion is available for this case.
A deterministic, rule-based suggestion. It never decides for you.

Support suggested to the resident

Emergency signals: the resident is shown the 112 notice first.

- Kraków Victim Support Centre (fictional) (Victim support)
Threat: Citywide - "threat". Emergency
- Bronowice Family Support (fictional) (Psychological support)
Threat: IV Prądnik Biały
- Night Support Line (fictional) (Helpline)
Threat: Citywide - Emergency
- Old Town Transit Safety Desk (fictional) (Victim support)
Threat: "bus" - "stop"
- Trauma Recovery Group (fictional) (Psychological support)
Threat: Citywide - Emergency

Matched from the report's category, district, severity and words. Fictional resources.

Message

The resident sees this text, never your name.

Local Operator

EN PL

Sign out

Operators work a queue: *Needs review, Awaiting resident, Handled.*

- Send a case to an organisation, ask the resident for more, or close it with a neutral notice
- A labelled, *simulated* advisory recommendation can be followed in one click; whether it was followed is audited
- Read-only **evidence vault**

Officials claim a case, record actions outside Haven (call, visit, referral) and close it with an outcome.

Data for the city, with privacy first

Area reports

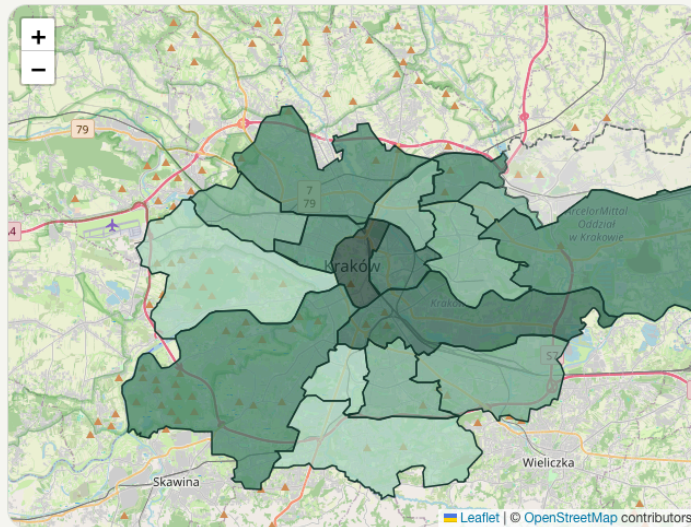

How many incidents were filed in each Kraków district. Exact locations are never shown.

To protect the people who report, a district with fewer than 3 filed reports shows no number. Drafts and cancelled reports are never counted.

All incident types

Unclassified Verbal harassment Physical intimidation

Threat Discrimination Vandalism or hate symbols Other

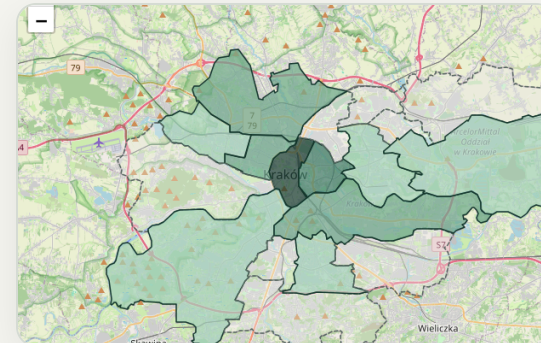

Reports by district

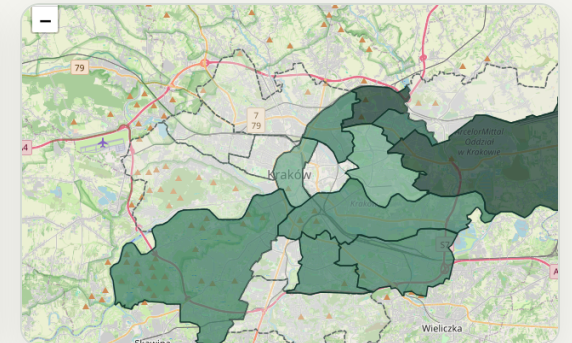

Area reports, the public front page, counts filed reports in each of the 18 districts, by incident type.

- **Fewer than 3 reports shows no number** (k-anonymity); drafts and cancelled reports never count
- No exact locations; no area is labelled "unsafe"

Each type tells the city where to put volunteers, outreach and support hours:

Verbal harassment: the centre

Hate symbols: the eastern estates

Demo data: about 330 fictional reports over nine months.

Built for trust and for everyone

Trust

Evidence fingerprinted with SHA-256 and streamed only to authorised staff. Append-only audit log of every staff decision. Concurrent edits are rejected, never overwritten.

Low barrier

No account needed. Drafts stay private and autosave. English and Polish. Web plus an Expo phone app with in-app audio and video capture and device location.

Accessible and calm

Targets WCAG 2.1 AA, with axe checks on every role's pages. 44 px touch targets, reduced motion, and light and dark themes in the "Calm Haven" design.

Smart City fit: communication between residents and institutions · response to incidents and emergencies · urban data for decisions · accessible public services.

Built in 24 hours, live on Azure

Architecture

- **Web:** Next.js 16 for residents, staff and the public
- **Mobile:** Expo app for residents
- **API:** NestJS 12 (Fastify) with role-based access
- **Database:** SurrealDB, with full-text search for matching
- Shared typed rules (zod) across all apps
- **Hosting:** one Azure VM with Docker Compose and Caddy (HTTPS)
- More than 200 unit and end-to-end tests, plus axe accessibility checks

Real in the prototype	Simulated
Reports, evidence, routing, queue, partner workflow, audit, Area reports, matching	Partner organisations and resources (fictional)
Advisory recommendation (rule-based)	Any real AI/LLM call
Escalation request	Identity verification
In-app messages	Email, SMS, real dispatch

What's next

- **AI-assisted guide:** helps a stressed resident capture the details and evidence that matter
- **AI-supported triage:** recommends a priority and next step for the operator to confirm
- **Court-grade Evidence Vault:** retention, legal holds, export, a full audit trail
- **Real partners:** official organisations, NGOs and volunteer groups; Ukrainian copy

Pilot: 3 districts (Stare Miasto, Grzegórzki, Podgórze) · 6 months · about **500,000 PLN** · then citywide

Try it: haven-hackyeah.polandcentral.cloudapp.azure.com. No account needed; demo staff logins are on **Sign in**.
